2. Summaries of sub-committees' progress to date
 - Outreach & Communications
 - Climate Survey
 - Research
3. Task force plans for January – October
4. Interim report
5. Reactions to the MIT Survey

Task Force on the Prevention of Sexual Assault

Minutes of the December 3, 2014 Meeting

The meeting began with the approval of the minutes from the November 5 meeting, followed by updates from each of the subcommittees.

The outreach and communications subcommittee reported on the series of workshops held in November. The subcommittee organized over 40 group sessions and numerous individual discussions across all the schools, and met with over 500 individuals. The data collected during these sessions will inform both the climate survey and Task Force recommendations moving forward.

The climate survey subcommittee is continuing to collaborate with the AAU to design a common climate survey with Westat, to be administered in April 2015. In addition to using data collected by the outreach subcommittee to create the survey instrument itself, the climate survey subcommittee is working to coordinate all schools across Harvard in order to maximize participation in the survey.

Finally, the research subcommittee gave an update on its continued review of studies on prevalence, prevention, and survey methodologies.
