March 2016 Harvard specific supplement to the AAU campus survey report

Office of Institutional Research
Harvard University
Overview

The Sexual Conduct Survey was administered to all degree-seeking students at Harvard during a three week period in April/May, 2015. Twenty-seven AAU (Association of American Universities) institutions, a mix of privates and publics, administered the same instrument. This group of institutions contracted with the vendor Westat to administer the survey and summarize results to ensure anonymity of student respondents. Westat’s Harvard-specific report of the results is available here: Companion Report on Harvard’s Sexual Conduct Survey Results.

The exhibits provided here extend and supplement Westat’s analyses not included in the AAU/Westat reports, such as Harvard school-level results, and not previously provided September, 2015. Some exhibits are prefaced by question-specific language for context.

Above are the weighted estimates of the population N for each Harvard School from which the prevalence rates in this deck are derived. School affiliation was not used as a variable in Westat’s raking procedure, therefore weighted estimates above may vary to some extent from true population numbers. To test the impact of this, we constructed a new set of weights that factored school affiliation in the raking procedure but we did not observe an effect on the prevalence rates. For a description of the methodology Westat used to construct the weights, see section 2.6 in the Westat report.
Outline

1. Prevalence, primarily of sexual misconduct
2. Additional information about incident and perpetrator characteristics
3. Additional information about resources, knowledge, climate
What does prevalence mean?

The fraction of people in the population (e.g., Harvard undergraduates) who are estimated to have experienced one or more assaults during the measurement period.

The measurement period may vary. For example:
1. Current academic year: “since the beginning of the fall 2014 term”
2. Since entering Harvard (note that this measurement period does not allow for direct comparability across cohorts of students, e.g., those who have been on campus one year compared to those who have been on campus six years)
3. Since entering Harvard, College seniors only

If a person has been assaulted one or more times, they are counted once in a measure of “prevalence.”

Prevalence is not a measure of the number of incidents.
Sexual assault and misconduct definitional categories used in the survey and reports

- Penetration involving force
- Attempted penetration involving force
- Sexual touching involving force
- Penetration involving incapacitation
- Sexual touching involving incapacitation
- Nonconsensual sexual contact involving coercion
- Nonconsensual sexual contact involving absence of affirmative consent
- Harassment
- Stalking
- Intimate partner violence

Attempted and completed penetration and sexual touching collectively referenced as "nonconsensual sexual contact." If involving force or incapacitation referenced as "Sexual Assault"

Most of these prevalence exhibits are included in the September 2015 Supplement to the AAU campus survey report

Collectively referenced as "Sexual Misconduct" relative to the above

The next questions ask about incidents that occurred without your active, ongoing voluntary agreement.

G8. Since you have been a student at [], has someone had contact with you involving penetration or oral sex without your active, ongoing voluntary agreement? Examples include someone:

- initiating sexual activity despite your refusal
- ignoring your cues to stop or slow down
- went ahead without checking in or while you were still deciding
- otherwise failed to obtain your consent

G9. Since you have been a student at [], has someone kissed or sexually touched you without your active, ongoing voluntary agreement? Examples include:

- initiating sexual activity despite your refusal
- ignoring your cues to stop or slow down
- went ahead without checking in or while you were still deciding
- otherwise failed to obtain your consent

Question language: 
Intimate Partner Violence

Earlier in the survey you indicated that you have been in a partnered relationship at least part of the time since you have been a student at [University]. People treat their partner in many different ways. The next section asks you questions about your relationship with your partner(s). Recall that partnered relationships include:

- casual relationship or hook-up
- steady or serious relationship
- marriage, civil union, domestic partnership or cohabitation

F1. Since you have been a student at [], has a partner controlled or tried to control you? Examples could be when someone:

- kept you from going to classes or pursuing your educational goals
- did not allow you to see or talk with friends or family
- made decisions for you such as, where you go or what you wear or eat
- threatened to “out” you to others

F2. Since you have been a student at [], has a partner threatened to physically harm you, someone you love, or themselves?

F3. Since you have been a student at [University], has a partner used any kind of physical force against you? Examples could be when someone

- bent your fingers or bit you
- choked, slapped, punched or kicked you
- hit you with something other than a fist
- attacked you with a weapon, or otherwise physically hurt or injured you

Question Language:
Stalking

The next questions ask about instances where someone behaved in a way that made you afraid for your personal safety.

E1. Since you have been a student at [], has someone made unwanted phone calls, sent emails, voice, text or instant messages, or posted messages, pictures or videos on social networking sites in a way that made you afraid for your personal safety?

E1a. Did the same person do this to you more than once since you have been a student at []?

E2. Since you have been a student at [], has someone showed up somewhere or waited for you when you did not want that person to be there in a way that made you afraid for your personal safety?

E3. Since you have been a student at [], has someone spied on, watched or followed you, either in person or using devices or software in a way that made you afraid for your personal safety?
